MONEY MARKET.

THURSDAY, June 22—6 P. M.

The stock market was in a very unsettled condition a the opening this morning, but there was considerable activity at the first board, and in several instances betber prices were realized. Canton Company advanced & per cent; New Haven Railroad, &; Pennsylvania Coal, &; Cumberland Coal, &; Eric Railroad, &. Illinois Central bonds declined & per cent; Chicago and Rock Bhand bonds, 1; New York Central Railroad, 1; North Ballend, Construction 1. Harden & Parkey Construction 1. Indiana Construction, %; Harlem, %; Reading Railroad, X; Michigan Central Railroad, 1/2. Cash stock was not very plenty, and most of the time operations were buy-er's option. Eric appears to be the great target for the bears, and they have followed it down with a determina tion seldom exhibited by that class of operators. We have repeatedly warned them about following it down too far, and the probability is that they will be serious sufferers for their rashness. They have not looked alosely enough to the character and quality of their contracts, and the wide margin that appears in their favor may prove, in many instances, of no value. That there have been no actual failures yet among the bulls is astonishing. As a general thing they have been strong, and have bled freely, but we must be prepared for some startling announcements soon. A few heavy failures would, for a time, produce a panic in the street, but it is a question If the ultimate effect would not be of a favorable cha racter. The bears would be compelled to let prices up for their own protection. It would have been much betser for them had they not depressed the market so much. Many of their contracts which will now prove worthless, would, without doubt, have been good had the margin against buyers been smaller. The bears have not acted upon the principle that half a loaf was better than no bread. The decline in the market value of stocks has been too great to expect the payment of all differences, buyers have been pretty seriously drained, and many must by this time be most effectually cleared out. The mext movement will be failures, and heavy ones too, that will produce panic upon panic, the immediate effect of which can easily be foreseen. The sooner it comes the better for those who have been holding on for better times. New York Central was sold freely to day at the decline. The lower this stock goes, the greater the quantity pressing for sale. Cumberland is the fanciest stock on the list. But for the depression in other stocks, which always more or less affects the market generally, we should find Cumberland somewhere in the vicinity of fifty per cent. A large quantity of the stock has been withdrawn, and placed in hands where it will remain. The coal tonnage for the month of June will considerably exceed that for May, which was upwards of twenty eight thousand tons. Nicaragua Transit stands well at the board. It has not been affected materially in market value by the scarcity of money. The July dividend will be a large per cent on the present cost of the stock.

After the adjournment of the board, the following bonds and stocks were sold at auction by A. H. Nicolay:

take place at the Merchants' Exchange to-morrow at half At the second board lower prices ruled throughout.

Eric Railroad sold at a decline of % per cent; New York Central Railroad, %; Nicaragua Transit, %; New York Central Bonds, 1/2; Harlem, 1/2; McCulloch Gold, 1/4; Canton Company, 14. At the close the tendency was down-The Michigan Southern and Northern Indiana Railroad

Company have declared a semi-annual dividend of five per cent on the full stock, payable in cash, on the 5th of July. Also an extra dividend from the surplus earnings, of one share of construction stock for every three shares of old stock held. Said stock to be issued August 1, with twenty per cent paid endorsed thereon, and the remaining eighty per cent to be paid by instalments of Afteen per cent on the 1st of August, September, October and November, and twenty per cent on the 1st of December. The semi-annual payment of four per cent interest on the construction stock will be made on the 1st of July. The Cleaveland, Columbus and Cincinnati Railread Company have declared a dividend of four per cent in cash, on the earnings of the last five months. The Eleaveland, Painesville and Ashtabula Railroad Company have declared a semi-annual cash dividend of five per cent on the full paid stock. A surplus dividend of six per cent will be paid in scrip on the 1st of August, which will be received at par in payment of the instalment on the new stock due July 1.

The hands employed in the mines of the Parker Vein Coal Company have suspended work, and have announced their determination to avail themselves of the Miners' bid, ex. div. 3% per cent; Michigan Central declined to 98, and closed heavy. In other stocks no materia lien law.

General Banking law discriminates unfavorably as regards Illinois steeks. Whatever may have sparated at the time of the passage of the law to give it sanction, by placing our own stocks in this equivocal position, it is conceived that there is no good reason now existing why these stocks ought not to be considered more nearly in their relation to their market value, as a deposit, than the law permits. We feel justified in the belief that the Auditor of Public Accounts and the Treasurer have faithfully and judiciously discharged their duties. involving great responsibility in regard to the deposits and bank circulation. have faithfully and judiciously discharged their duties,

The circulating notes of our own banks, as yet, sustain but a very limited relation to our entire currency circu-lation—perhaps not more than three-tenths. This disproportion will, however, gradually diminish as our domestic issues find their way into the State, from the distant points where they were originally put into circulation. Of the remote or foreign paper which makes up the residue of our paper circulation, a portion rests upon a stock security basis for its redemption, while a large proportion rests upon a foundation always liable to

suspicion. Since the adoption of the general banking law, thirty-one banks or banking associations have been establish-ed with an aggregate capital stock of \$17,360,000, upon which have been deposited with the auditor and treas urer public stocks to the value of \$2,650,987 62. Two of this number, to wit : the bank of Lucas and Simonds, Springfield, and the Quincy City Bank, Quincy, have closed their business operations, and are now being wound up under the law. Some two or three of the aboye number have lately gone into operation, and consequently their business is as yet rather limited. That the number of banks will increase may be confidently expected from causes before hinted at—the large amount of stock ready for investment and the fact that they can be profitably used for this purpose. It becomes no part of our duty to speculate upon the vast interests de-pendent upon the proper management of these associations. Much may depend upon appropriate legislation to remedy such errors as the system of banking may from time to time evolve during its operation.
